Summary

Computer Science (AI) undergraduate specializing in applied AI, intelligent systems, and embedded technologies, with hands-on experience building machine learning, computer vision, and wireless IoT solutions. Strong foundation in Python, deep learning, signal processing, SDR, and real-time data systems, with projects spanning AI-driven medical imaging and indoor localization. Published research at IEEE ICONAT 2026 and presented at SGCNSP 2025, Singapore.

Education

Bachelor of Engineering in Computer Science (Artificial Intelligence) **2023 – 2027**
KLE Technological University, Dr. M.S. Sheshgiri Campus, Belagavi, Karnataka – CGPA: 8.42

Pre-University (PUC), Class XII **2021 – 2023**
Govindram Seksaria PU College, Belagavi, Karnataka – 88.66%

Skills

Languages	Python, Java, SQL
Machine Learning & AI	TensorFlow, PyTorch, Scikit-learn, XGBoost, NumPy, Pandas, Computer Vision
Embedded & Systems	ESP32 firmware, I2C sensor interfacing, real-time embedded systems
Technologies & Platforms	Docker, Firebase, Git, REST APIs, AWS, USRP B210 SDR, IoT, Edge Computing
Databases & Concepts	MongoDB, OOP, Operating Systems, Computer Networks, Generative AI

Projects

3D Wi-Fi Based Floor Localization System *GitHub* *Jan – May 2026*

- Built a real-time Radio Frequency data acquisition pipeline using USRP B210 SDR for Wi-Fi RSSI fingerprinting; applied a 1D CNN achieving **93.34%** validation accuracy for 3D multi-floor prediction.
- **Published** research findings at IEEE 5th International Conference on Advancement in Technology (ICONAT 2026).

Meeting Organizer Agent *GitHub* *Sep – Oct 2026*

- Engineered a multi-agent platform with **10** LangGraph agents and **28** FastAPI endpoints, integrating Gemini LLM, ChromaDB RAG, faster-whisper STT and MCP tools to automate the meeting lifecycle.
- Designed a two-pass extraction pipeline with SHA-256 quote grounding and **2** human approval gates; minutes generate in **8.04s** (p95) and the system is backed by **132** automated tests.

Prostate Cancer Detection from Histopathology Images *GitHub* *Sep 2025 – Jan 2026*

- Developed a prostate cancer detection system from 18,000+ histopathology images using XGBoost and ensemble learning, achieving **84.37%** accuracy and **0.9243** ROC-AUC.
- **Presented** research findings at the SGCNSP 2025 International Conference, Singapore.

Co-Curricular Experience

Treasurer, ARC Stack Tech Club | HR & Literary Club Core *Nov 2024 – Present*

- Managed **Rs. 4,00,000** in club finances across department clusters, driving resource allocation and supporting the successful execution of technical events and student engagement initiatives.
- Organized and coordinated HR and Esports events for **300+** students, driving event execution and strengthening student engagement across campus.

Achievements & Certifications

- **Top 10 Global Rank** – WiDS Datathon 2025, competing among **1,000+ teams** across **100+ countries**.
- **Research Publications:** Published research at IEEE ICONAT 2026 and presented research at SGCNSP 2025 International Conference, Singapore.
- **NCC Sergeant & Contingent Leader**, Belagavi Division (2019–2021) – Represented Karnataka & Goa Directorate at the All India Thal Sainik Camp, New Delhi; achieved **Top 10 All India Rank** in 0.22 Cal Rifle Shooting and qualified for national-level AIGVMSC selection.
- **Certifications:**

Oracle – Agentic AI Certified Foundations
Cisco – Introduction to Cybersecurity
Microsoft – Azure Fundamentals
NPTEL – Introduction to Machine Learning
Google Cloud – Data Analytics
HPE Juniper – JUNOS Associate
Google – Introduction to Large Language Models
Infosys – Understanding DevOps Tools
